Protecting Lives and Assets with Advanced Firefighting Solutions Built on Quality, Innovation, and Reliability.

FLAME ARMOR Industrial Co. is a leading Saudi manufacturer specializing in high-performance firefighting foam concentrates. We deliver advanced fire protection solutions designed to safeguard lives, assets, and critical facilities against fire hazards.

Using modern manufacturing technologies and advanced quality control systems, we produce firefighting foam that meets international standards while ensuring exceptional reliability and consistent performance across demanding environments, including industrial facilities, oil & gas operations, petrochemical plants, marine applications, and offshore installations.

Proudly supporting Saudi Arabia's industrial development, we are committed to providing locally manufactured products that compete with global brands in quality, efficiency, and reliability.

Through continuous innovation and ongoing product development, FLAME ARMOR strives to exceed customer expectations while maintaining the highest standards of quality, safety, and sustainability, building long-term partnerships based on trust and excellence.

Vision

To become the preferred manufacturer of firefighting foam solutions across Saudi Arabia and the Middle East by delivering innovative, world-class products that protect lives, assets, and critical infrastructure.

Mission

To develop and manufacture high-performance firefighting foam concentrates that meet international standards while delivering safe, reliable, and effective fire protection solutions through innovation, quality excellence, and lasting customer partnerships.

Our Commitment

At FLAME ARMOR, we are committed to continuous innovation, uncompromising quality, and the highest safety standards, delivering dependable firefighting solutions that meet today's challenges and tomorrow's expectations.

The Principles That Drive Our Success

At FLAME ARMOR, our core values define who we are and guide every stage of our operations. They reflect our commitment to delivering trusted products, building lasting partnerships, and maintaining the highest standards of quality and safety.

Quality

We deliver products manufactured to the highest international standards, ensuring exceptional performance and reliability.

Innovation

We continuously improve our products and technologies to meet the evolving demands of the fire protection industry.

Reliability

We provide dependable solutions that safeguard lives, assets, and critical operations.

Excellence

We pursue excellence in every aspect of manufacturing, quality control, and customer service.

Customer Commitment

We build long-term partnerships by delivering effective solutions, technical support, and exceptional service.

Sustainability

We are committed to sustainable practices that enhance safety while supporting long-term industrial growth.

Driven by Purpose. Focused on Excellence.

At FLAME ARMOR, our objectives reflect our commitment to quality, innovation, and sustainable growth.

Manufacture premium firefighting foam concentrates that comply with international standards.

Support Saudi Arabia's local manufacturing and industrial development.

Deliver safe and effective fire protection solutions for diverse industries.

Maintain the highest quality assurance and testing standards throughout production.

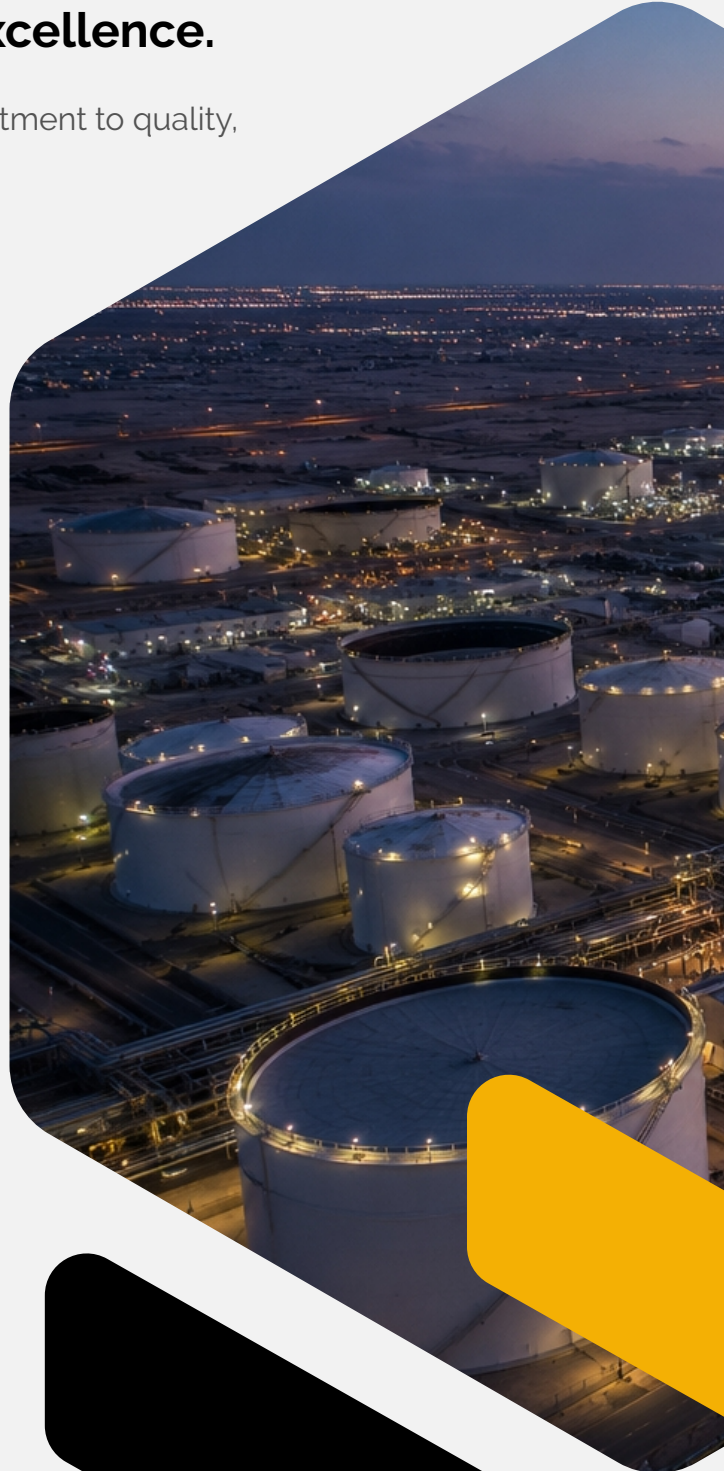

Continuously develop products to meet evolving local and global market demands.

Provide competitive solutions without compromising quality or performance.

Build strategic partnerships to strengthen regional and international market presence.

Manufacturing Excellence Built on Precision

FLAME ARMOR's manufacturing capabilities are built on advanced technology, efficient production processes, and rigorous quality standards. Our modern facility is designed to ensure consistent product quality, high production capacity, and reliable performance, enabling us to meet the growing demands of local and international markets with confidence.

Advanced Production Lines

Modern production lines designed for efficiency and consistent performance.

Modern Manufacturing Technology

Advanced technologies that ensure precision and operational efficiency.

Continuous Improvement

Continuous investment in process optimization and manufacturing excellence.

High Production Capacity

Scalable production capabilities to meet projects of all sizes.

Reliable Supply

Efficient production planning and dependable delivery schedules.

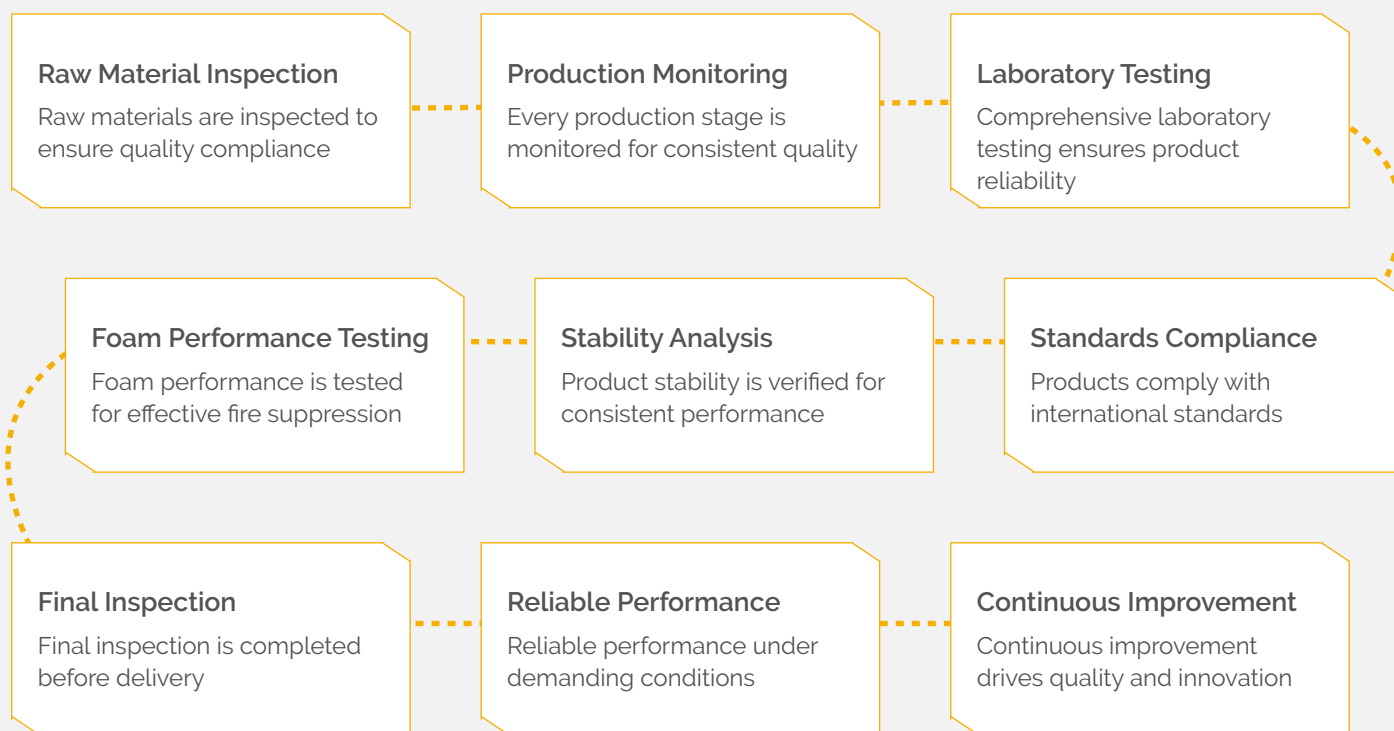

International Standards

Manufacturing processes aligned with recognized international quality requirements.

Committed to Excellence at Every Stage

At FLAME ARMOR, quality is the foundation of every product we manufacture. Our quality assurance process covers every stage of production—from raw material inspection to final product verification—ensuring that each firefighting foam concentrate meets the highest standards of performance, reliability, and safety.

Equipped with a dedicated laboratory and advanced testing procedures, we continuously monitor product quality to ensure full compliance with technical specifications and international requirements.

Advanced Firefighting Foam Solutions

FLAME ARMOR offers a range of high-performance firefighting foam concentrates engineered to deliver rapid fire suppression and reliable protection across diverse industrial applications.

AFFF Firefighting Foam

High-performance aqueous film-forming foam concentrate designed for rapid suppression of hydrocarbon fuel fires.

Product Code : FA-AFFF-001

Release Date : Available Upon Request

Available Concentrations : 1% • 3% • 6%

Packaging Options :

20 L • 25 L • 200L, 1000L

Technical Specifications

Fire Class : Hydrocarbon Fires

pH Value: 9.01

Expansion Ratio : 9.0

Drainage Time : 10 min 15 sec

Burn Back Time : >300 sec

Freezing Point : -10°C

Compliance : EN 1568 / NFPA 11

NFPA 11

EN 1568

AFFF-AR Firefighting Foam

Alcohol-resistant firefighting foam concentrate designed for hydrocarbon and polar solvent fires.

Product Code : FA-AFFFAR-001

Release Date : Available Upon Request

Available Concentrations : 3% • 3*3%

Packaging Options :

20 L • 25 L • 200L. 1000L

Technical Specifications

Fire Class : Hydrocarbon & Polar Solvent Fires

pH Value: 6.09

Expansion Ratio : 7.0

Drainage Time : 8 min 20 sec

Burn Back Time : >300 sec

Freezing Point : -11°C

SFFF Firefighting Foam

High-performance synthetic fluorine-free firefighting foam concentrate designed for rapid fire suppression while providing enhanced environmental performance. Suitable for hydrocarbon fuel fires and industrial fire protection applications

Product Code : FA-SFFF-003

Release Date : Available Upon Request

Available Concentrations : 3%

Packaging Options :

20 L • 25 L • 200L, 1000L

Technical Specifications

Fire Class :Hydrocarbon Fuel Fires

Burn Back Resistance : High Performance

Operating Temperature : As per Product Specification

Storage Temperature : 0°C to 49°C

Compliance : EN 1568 • NFPA 11

AR-SFFF Firefighting Foam

Advanced alcohol-resistant synthetic fluorine-free firefighting foam concentrate formulated for effective suppression of both hydrocarbon and polar solvent fires. Provides reliable burn-back resistance and long-lasting foam stability in demanding industrial applications.

Product Code : FA-ARSFFF-033

Release Date : Available Upon Request

Available Concentrations : 3% 3%

Packaging Options :

20 L • 25 L • 200L, 1000L

Protecting Critical Industries with Reliable Firefighting Solutions

FLAME ARMOR firefighting foam concentrates are engineered to meet the fire protection requirements of a wide range of industries. Our solutions deliver reliable performance and effective protection across demanding industrial, commercial, and marine environments.

Oil & Gas Facilities

Petrochemical Plants

Refineries

Marine & Offshore

Airports & Aviation

Industrial Facilities

Tank Farms & Fuel Storage

Fire Protection Systems

Commercial & Infrastructure Projects

Your Trusted Partner in Fire Protection

At FLAME ARMOR, we go beyond manufacturing firefighting foam concentrates. We deliver complete fire protection solutions built on quality, innovation, and reliability, ensuring long-term value and confidence for every customer.

Saudi Manufacturing

High-quality products proudly manufactured in Saudi Arabia.

Premium Quality

Consistent quality for reliable performance

Reliable Performance

Reliable solutions for demanding fire protection

Advanced Technology
